On the ABOVE DATE, pursuant to plans developed in a meeting at the Attorney General's Office (see memo by Ken Beckley for 5-13-83), I inspected six of the Film Recovery truck STORAGE AREAS in order to insure that the sites were secured. I was accompanied by Lt Grosskurth & Cpl Underwood of the Illinois State Police, 4th District. After inspecting each site I reported the status of the site to Cpl John Carey at the Attorney General's Office by telephone.

We first proceeded to Chicago / Aldens, 5000 W. Roosevelt arriving at 1755. George Klustsch owner of American Interstate was in the process of locking & placarding the trailers. A guard from Industrial Patrol was on duty & the area was secured by Aldens site fence. We also spoke with Sgt Harris & Sgt Craig of the Chicago P.D.

The second site inspected was Summit / EAGLE Trailer 7710 W. 57th arriving on site at 1915. The site was secured, with fencing & accessible trailers had been bolted shut. Industrial Patrol had contacted local police to maintain guard on site. Chief Vukovich was on site in addition to the guard. A skidmark was noted in front of trailer EV7075.

We then proceeded to J's Mobile Semi-Trailer Repair 8765 W. Joliet Rd, McCook arriving at 1933. The site was locked & trailers were placarded. A security guard was on duty & Dep. Chief Redzik of McCook P.D. was also on site. One trailer which had a broken door had

been boarded up.

The fourth site inspected was Hodgkins / Riteway Trucking at 6021 S. East Ave. We arrived at 1942. All trailers were locked & placarded according to Sgt Rhodes of Hodgkins P.D. The entire site was fenced & locked. A Security guard was on duty.

We then proceeded to Hinsdale / HBE Trailer Corp. 15WS80 Frontage Rd., arriving at 2300 during a SEVERE electrical storm.

Site was fenced & locked. No guard was on site however Mr B. How of Industrial Patrol, contacted by telephone, stated that off-duty Burr Ridge Police Officers would be arriving to guard the site after 2300.

The sixth & final stop was Chicago / Ridge / Livco 6700 W 103rd St, arriving at 2354, in a heavy downpour. On site was Officer Kyzmarski of Chicago Ridge P.D. who stated that the trucks were placarded & possibly locked. The entrance to the site is fenced and was locked.

Upon concluding this inspection we returned to District 4 Ill. State Police Headquarters. I later spoke with Ken Bechely & notified him that we had completed our inspections.
